The Professional Baker

Uses GOLD MEDAL FLOUR

FIRST: Because it has unequalled Quality for making bread, biscuits, rolls, pies and cakes to suit his customers.

SECOND: Because it makes more bread, rolls, pies and cakes than other flour.

For the same good reason every housewife in the United States should use GOLD MEDAL FLOUR.

If you can't dispute this argument, better buy it next baking day.

If You Please – Don't Merely ask for Flour

Any ordinary mill can make ordinary flour, but ordinary flour is not good enough for you -- or for me, when better can be had for the asking. You want nice, light, creamy bread and biscuits; and rolls and pie crust that are deliciously wholesome. Then ask for GOLD MEDAL FLOUR instead of merely ordering "a sack of flour." The good bread, good biscuits and good pies will come easy enough with GOLD MEDAL FLOUR in the house. Made by special process in the greatest milling plant in the world.

IF YOU WERE A MILLER

If you were a Miller, would you bother to wash the wheat and scour it? That's what WASHBURN-CROSBY CO. do in milling GOLD MEDAL FLOUR. Then the wheat is run through TWENTY sets of steel rolls to grind it very fine and even. And it's sifted TEN times through the finest silk. Our process makes the dough a uniform mixture-makes nice light, creamy bread and biscuits-makes the bakings a success.
